

# ORRO SKIN STUDIO – Redefining Natural Beauty

## Introduction

At Orro Skin Studio, we believe that healthy, radiant skin is not just a luxury — it's a reflection of self-care and confidence. Our mission is to bring advanced aesthetic technology and professional skin expertise together in a serene, luxurious environment. Each treatment is customized to suit your skin's unique needs, ensuring visible results and long-term skin wellness.

## Our Mission

Our mission is to provide safe, scientific, and results-driven skin care treatments using the world's most advanced technologies and professional techniques. We aim to deliver excellence through expertise — giving every client glowing, healthy, and youthful skin without compromising comfort or safety.

# Our Commitment

- • To maintain international hygiene and safety standards
- • To use FDA-approved and dermatologically tested equipment
- • To provide personalized skin consultations and aftercare support
- • To ensure every treatment delivers visible and lasting results

**ORRO**  
SALON SPA SKIN SLIMMING

## 🌟 Our Advanced Skin Treatments

### 💧 HydraFacial – Advanced Hydration & Deep Cleansing Facial

The **HydraFacial** is one of the world's most advanced non-invasive facial treatments that combines **cleansing, exfoliation, extraction, hydration, and antioxidant protection** all in one.

It delivers **instant, visible results** with no downtime and is suitable for **all skin types**.

#### **Benefits of HydraFacial**

- Deeply cleanses and detoxifies pores
- Provides intense hydration for dry or dehydrated skin
- Improves skin tone, texture, and elasticity
- Reduces fine lines, wrinkles, and dullness
- Minimizes enlarged pores and oiliness
- Brightens complexion and boosts glow
- Soothes inflammation and redness
- Suitable for all skin types, even sensitive

LOW

HydraFacial Treatment

- **Unique Features of HydraFacial Technology**

- **Vortex Fusion Technology:**

Combines exfoliation, extraction, and infusion in one step for maximum efficiency.

- **Gentle yet effective:** No pain, redness, or irritation.

- **Customizable serums:**

Formulated for different skin types and concerns.

- **Instant results:** Visible glow and hydration right after treatment.

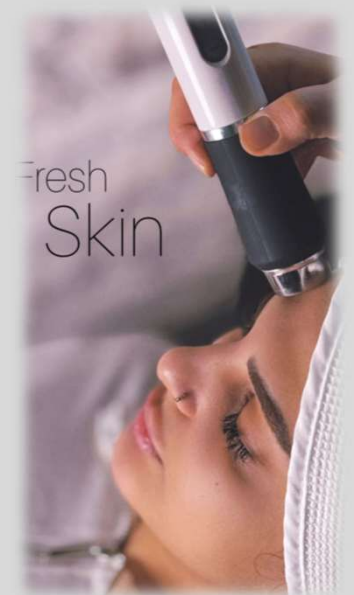

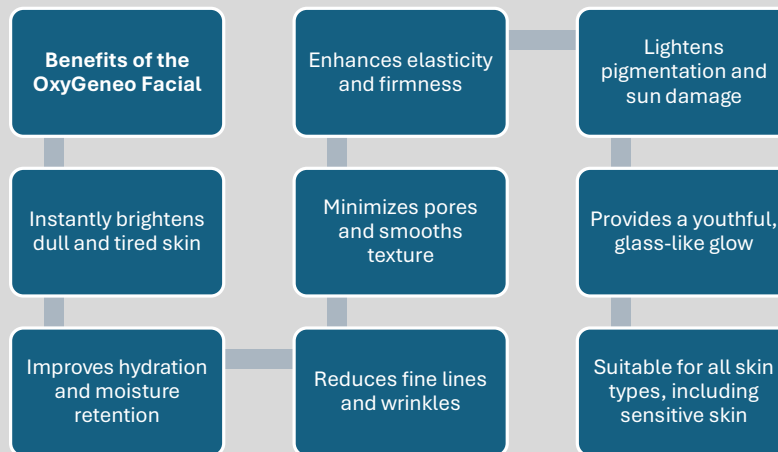

## OxyGeneo Facial – 3-in-1 Super Facial for Ultimate Skin Rejuvenation

The **OxyGeneo Facial** is a revolutionary **3-in-1 super facial treatment** that combines **exfoliation, oxygenation, and nourishment** in a single session.

It rejuvenates dull, tired skin and restores a youthful glow — instantly.

Inspired by the natural process of skin oxygenation in the body, this advanced facial triggers oxygen generation from *within the skin*, unlike traditional oxygen facials that push oxygen from outside.

# ORR

N SPA SKIN SLIM

## How It Works – The 3-in-1 Action

**1. Exfoliation** The treatment starts with a gentle exfoliation using a **capsugen** capsule (infused with natural ingredients like bicarbonate and citric acid).

This removes dead cells, smooths the surface, and prepares the skin to absorb active nutrients.

**2. Oxygenation** When the OxyGeneo capsule reacts with the nutrient-rich gel on the skin's surface, it produces **tiny CO<sub>2</sub> bubbles** that burst gently, triggering a natural physiological response known as the **Bohr Effect**.

This increases **oxygen levels from within the skin**, enhancing circulation and nutrient delivery to skin cells.

**3. Nourishment** Once the skin is exfoliated and oxygenated, it is infused with active ingredients — such as **hyaluronic acid, retinol, vitamin C, peptides, or antioxidants** — that penetrate deep into the dermis, leaving the skin healthy, plump, and radiant.

## 🌟 Radio Frequency (RF) Skin Tightening – Non-Surgical Lift & Rejuvenation

**Radio Frequency (RF) Skin Tightening** is a **non-invasive aesthetic treatment** designed to **lift, firm, and rejuvenate** the skin by stimulating deep collagen production. It uses safe, controlled **RF energy** (radio waves) to heat the deeper dermal layers of the skin without damaging the surface, triggering the body's natural healing process and tightening the underlying tissues.

### How It Works

RF energy delivers gentle heat (typically 38–42°C) into the **dermis**, the deeper layer of the skin where **collagen fibers and elastin** reside.

This controlled heating causes **immediate collagen contraction** and **long-term collagen remodeling**, making the skin firmer and more lifted.

Over time, new collagen and elastin fibers are produced, restoring **tightness and youthful contour** to the treated areas.

### Benefits

- **Firms and lifts sagging skin** on the face, neck, and body
- **Smooths fine lines and wrinkles**
- **Improves jawline definition** and reduces double chin
- **Tightens enlarged pores** and refines skin texture
- **Boosts collagen and elastin** for long-term rejuvenation
- **Enhances blood circulation**, promoting a natural glow
- **Safe for all skin types** with no downtime

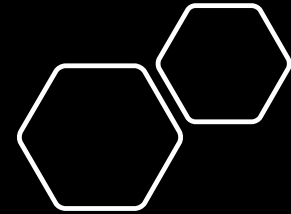

## ● Carbon Laser Facial – Deep Cleansing & Skin Rejuvenation

The **Carbon Laser Facial**, also known as the *Hollywood Peel* or *China Doll Facial*, is a cutting-edge, non-invasive skincare treatment that combines a carbon-based lotion with laser technology to deeply cleanse, exfoliate, and rejuvenate the skin.

### Benefits

- Deeply cleanses and detoxifies pores
- Removes excess oil and impurities
- Minimizes blackheads and acne breakouts
- Reduces pore size and skin congestion
- Improves skin tone, texture, and clarity
- Stimulates collagen for firmness and elasticity
- Brightens skin and restores a youthful glow
- Safe for all skin types, including sensitive skin

ORRO  
SALON SPA SKIN SLIMMING

## How It Works

### 1. Carbon Lotion Application:

1. A thin layer of activated carbon-based lotion is applied to the skin.
2. The carbon particles penetrate pores and bind to impurities such as oil, dirt, and dead skin cells.

### 2. Laser Treatment:

1. A Q-switched Nd:YAG laser is gently passed over the skin surface.
2. The laser energy is absorbed by the carbon particles, causing them to vaporize instantly along with debris inside the pores.
3. This process produces a mild exfoliation and stimulates skin renewal.

### 3. Collagen Stimulation & Skin Tightening:

1. The laser energy heats the dermal layers, stimulating collagen production.
2. This leads to improved skin elasticity, reduced fine lines, and a firmer, youthful appearance.

## ☀️ IPL Acne & Skin Rejuvenation – Light-Based Skin Renewal

**IPL (Intense Pulsed Light)** Acne & Skin Rejuvenation is an advanced, non-invasive treatment that uses broad-spectrum light energy to treat a variety of skin concerns — from acne and pigmentation to skin texture and early signs of aging.

### Benefits

- Reduces active acne and prevents future breakouts
- Minimizes pore size and excess oil production
- Improves skin tone and reduces pigmentation
- Softens fine lines and wrinkles
- Stimulates collagen for firmer, more youthful skin
- Reduces redness and inflammation
- Improves skin texture and clarity
- Non-invasive with minimal discomfort and downtime

IPL  
PHOTOREJUVENATION  
BENEFITS

- Reduces sunspots and discoloration.
- Smooths uneven skin tones.
- Quick, non-invasive, and effective.

REVERSE-NON-AGING  
SPECIALTIES INC.

The complex block features a photograph of a woman with her eyes closed, receiving an IPL treatment on her face. Below the photo is a title 'IPL PHOTOREJUVENATION BENEFITS' and three rounded rectangular boxes listing benefits: 'Reduces sunspots and discoloration.', 'Smooths uneven skin tones.', and 'Quick, non-invasive, and effective.'. At the bottom, there is a small, mirrored logo for 'REVERSE-NON-AGING SPECIALTIES INC.'

## How IPL Acne & Skin Rejuvenation Works

### 1. Targeted Light Energy:

1. IPL uses multiple wavelengths of light to penetrate the skin at different depths.
2. These light pulses target specific skin concerns without harming the surrounding tissue.

### 2. Acne Treatment Mechanism:

1. The light penetrates sebaceous glands, destroying acne-causing bacteria and reducing excess sebum production.
2. This process minimizes breakouts and prevents future acne formation.

### 3. Skin Rejuvenation Mechanism:

1. IPL stimulates collagen and elastin production by delivering light energy deep into the dermis.
2. It also improves blood circulation and promotes cellular renewal.
3. This reduces pigmentation, fine lines, and uneven skin texture.

## 🌟 Laser Hair Removal – Precision Hair Reduction & Smooth Skin

**Laser Hair Removal** is a safe, effective, and long-lasting solution for unwanted hair removal. Using advanced laser technology, this treatment targets hair follicles with concentrated light energy, preventing future hair growth while leaving the surrounding skin untouched.

### Benefits

- Permanent hair reduction with repeated sessions
- Smooth skin with minimal ingrown hairs
- Quick treatment sessions with precision targeting
- Safe for most skin types and hair colors (custom settings for skin tone)
- Minimal discomfort compared to traditional hair removal methods
- No downtime — immediate return to normal activities
- Reduces hair thickness over time

• **Long-term hair-free skin**

• **Safe for all skin types**

• **Quick and comfortable**

• **Reduces ingrown hairs and irritation**

## How Laser Hair Removal Works

### Targeting Hair Follicles:

- The laser emits pulses of light that penetrate the skin and are absorbed by the pigment (melanin) in the hair.
- This light energy converts to heat, which damages the hair follicle.

### Inhibiting Hair Growth:

- The damage to the follicle delays hair regrowth and may prevent future growth altogether.
- Since hair grows in cycles, multiple treatments are needed to target hair in different growth phases.

### Precision & Safety:

- Advanced laser systems allow precise targeting of dark, coarse hair without damaging surrounding skin.
- Suitable for various body areas, from face and underarms to legs, bikini lines, and more.

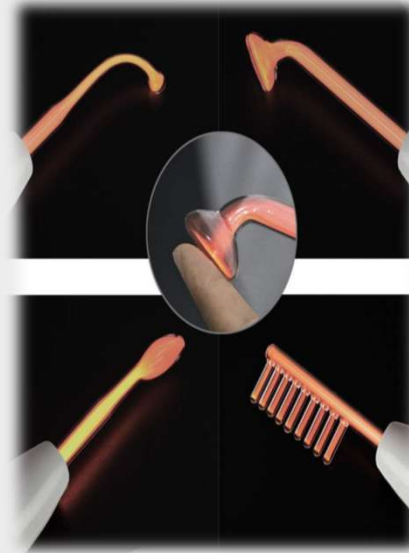

## ⚡ High Frequency Facial – Skin Rejuvenation & Acne Treatment

**High Frequency Facial** is an advanced skincare treatment that uses high-frequency electrical currents to stimulate, rejuvenate, and treat the skin. This gentle, non-invasive therapy is designed to improve skin texture, treat acne, reduce fine lines, and promote overall skin health.

### Benefits

- Stimulates collagen and elastin production for firmer skin
- Improves blood circulation and oxygen flow
- Treats and prevents acne by killing bacteria
- Reduces fine lines, wrinkles, and puffiness
- Improves skin texture and tone
- Minimizes enlarged pores
- Enhances product absorption for better skincare results
- Gentle, non-invasive, and safe for all skin types

## How High Frequency Facial Works

### High Frequency Electrical Current:

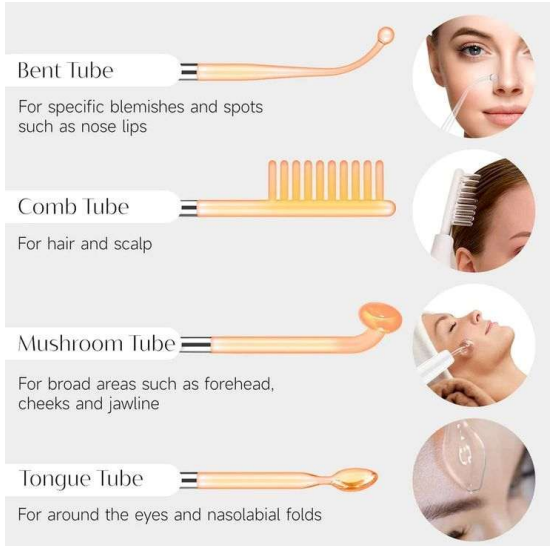

- The treatment uses a specialized glass electrode filled with neon or argon gas that emits a mild electrical current.
- This current produces oxygen molecules and a gentle thermal effect on the skin.

### Stimulation of Cellular Activity:

- The oxygen-rich environment boosts blood circulation and stimulates collagen and elastin production.
- It helps repair skin cells and improve overall skin texture.

### Targeted Treatment:

- The high-frequency current penetrates the skin gently to treat specific concerns like acne, fine lines, puffiness, and enlarged pores without harming the surrounding skin.

## ✨ Microneedling – Advanced Skin Rejuvenation & Collagen Stimulation

**Microneedling**, also known as collagen induction therapy, is an advanced skin treatment that uses fine, sterile micro-needles to create controlled micro-injuries on the skin's surface. This stimulates the skin's natural healing process, encouraging collagen and elastin production for smoother, firmer, and healthier skin.

### Benefits

- Improves skin texture and tone
- Reduces fine lines and wrinkles
- Minimizes pore size
- Fades acne scars and stretch marks
- Reduces pigmentation and hyperpigmentation
- Stimulates collagen production for firmer skin
- Enhances product absorption
- Improves overall skin health and radiance

### Enhanced Serum Absorption:

- The micro-channels allow active serums to penetrate deeper into the skin for better results.
- Serums used may contain growth factors, peptides, hyaluronic acid, and vitamins for targeted concerns.

### How Microneedling Works

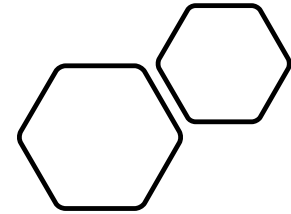

### Collagen & Elastin Stimulation:

- The skin responds by producing new collagen and elastin fibers.
- This enhances skin thickness, firmness, and elasticity over time.

### Micro-Injury Creation:

- A precision device with ultra-fine needles is used to create microscopic channels in the skin.
- These micro-injuries trigger the skin's natural repair process.

## ✦ Chemical Peel – Advanced Skin Renewal Therapy

A **chemical peel** is one of the most effective professional treatments to **renew, refresh, and transform the skin.**

It involves applying a scientifically balanced solution of exfoliating acids that safely remove the outer layers of dead, dull, or damaged skin.

This process triggers **cell regeneration and collagen production**, revealing smoother, brighter, and more youthful skin underneath.

At **Orro Skin Studio**, all peels are customized to your unique skin type and concern, ensuring maximum results with complete safety.

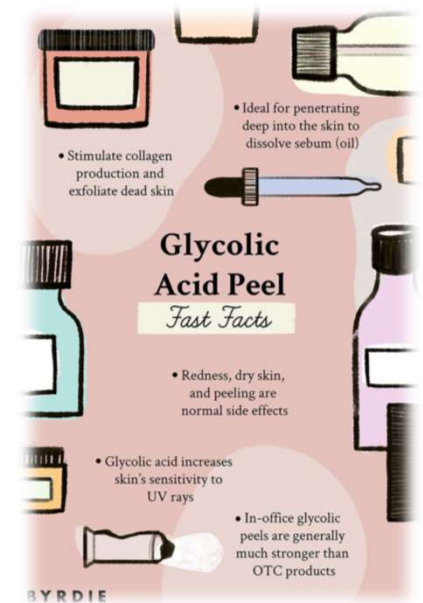

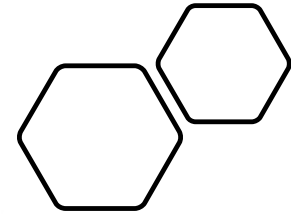

### Benefits:

- Reduces pigmentation and scars
- Improves texture and clarity
- Enhances skin brightness
- Stimulates cell renewal

## Popular Peel Treatments at Orro Skin Studio

**ORRO**  
SALON SPA SKIN SLIMMING

### 1. Glycolic Peel – Glow & Radiance Boost

**Key Ingredient:** Glycolic Acid (derived from sugarcane)

**Best For:** Dull, rough, and uneven skin tone

#### How It Works:

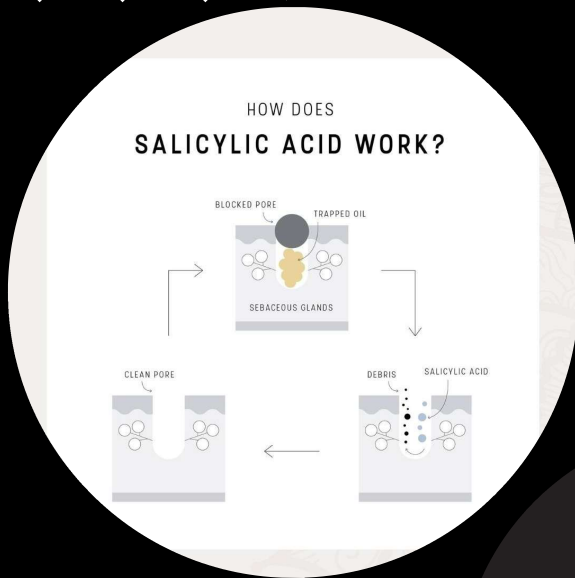

Glycolic acid has the smallest molecular size among AHAs, allowing it to penetrate deeply into the skin. It dissolves dead cells and stimulates collagen formation, giving a radiant and refreshed appearance.

#### Benefits:

- Removes dull surface cells instantly
  - Minimizes fine lines and dryness
  - Boosts skin radiance and smoothness
  - Improves the absorption of skincare products
- Treatment Feel:** Mild tingling; gives a glass-skin glow post-session

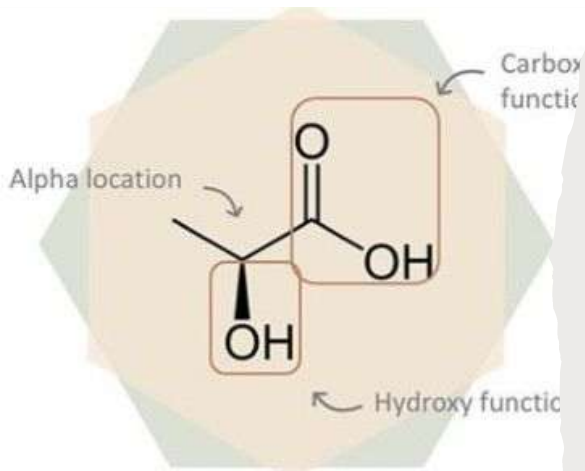

## 2. Salicylic Peel – Acne & Oil Control

- **Key Ingredient:** Salicylic Acid (a Beta Hydroxy Acid)
- **Best For:** Oily, acne-prone, and congested skin
- **How It Works:** Salicylic acid penetrates deep into the pores, dissolving excess oil, bacteria, and debris that cause acne. It also has anti-inflammatory properties, reducing redness and swelling.
- **Benefits:**
  - Clears acne and prevents new breakouts
  - Reduces oiliness and tightens pores
  - Smoothens acne scars and rough texture
  - Provides an overall matte finish
- **Treatment Feel:** Light warmth; visible reduction in oil and acne within days

## LACTIC ACID

### BENEFIT

#### Superficial

Helps treat acne, hyperpigmentation, and improves appearance

### ORIGIN

#### Fermentation

Typically manufactured from sugars, but can also be derived from dairy. Our cells also produce lactic acid as a metabolic byproduct.

Exfoliant (AHAs) dissolve bonds and promote growth of new skin

Wear sunscreen at night because of photosensitivity of skin, and to UVB ray damage

## 3. Lactic Peel – Hydration & Brightness

- **Key Ingredient:** Lactic Acid (derived from milk)
- **Best For:** Dry, sensitive, or mature skin
- **How It Works:** Lactic acid is a gentle exfoliant that removes dull skin cells while increasing skin's moisture retention. It stimulates natural hydration and smoothness without irritation.
- **Benefits:**
  - Deeply hydrates and softens dry skin
  - Gently exfoliates for a luminous glow
  - Reduces pigmentation and uneven tone
  - Ideal for first-time peel users or sensitive skin types
- **Treatment Feel:** Mild and refreshing; leaves skin dewy and plump

## 4. TCA Peel – Texture Refinement & Pigmentation Repaire

- **Key Ingredient:** Trichloroacetic Acid (TCA)
- **Best For:** Pigmentation, acne scars, uneven tone, and aging skin, *improve* the appearance of stretch marks
- **How It Works:**  
TCA penetrates the middle layers of the skin, promoting collagen production and resurfacing. It helps fade deep discolorations, scars, and age spots for a smoother, firmer appearance.
- **Benefits:**
  - Reduces pigmentation, age spots, and acne marks
  - Firms and tightens skin
  - Evens skin tone and texture
  - Stimulates collagen regeneration
- **Treatment Feel:** Warm sensation; mild peeling over 3–5 days

Pigmetation  
Scarring  
Discoloration  
Acne skin  
Sun damaged skin

 ORRO™

## 5. Carbon Peel (Hollywood Peel) – Deep Cleansing & Instant Glow

**Key Ingredients:** Carbon mask + Q-Switched Laser energy

**Best For:** Enlarged pores, oily skin, dullness, or blackheads

### **How It Works:**

A thin layer of carbon is applied to the face, then targeted with a laser that vaporizes impurities, oil, and bacteria. It's painless yet powerful for deep cleansing and rejuvenation.

### **Benefits:**

- Minimizes pores and balances oil production
- Removes blackheads and dead skin cells
- Improves clarity and brightness
- Stimulates collagen and elasticity

•**Treatment Feel:** Gentle warmth; results visible immediately after treatment

## 6. Vitamin C Peel – Antioxidant & Brightening Therapy

**Key Ingredients:** Ascorbic Acid (Vitamin C) with natural fruit enzymes

**Best For:** Sun-damaged, dull, or uneven skin tone

### **How It Works:**

This peel infuses the skin with Vitamin C antioxidants that neutralize free radicals, brighten pigmentation, and boost collagen. It's perfect for restoring skin radiance and vitality.

### **Benefits:**

- Brightens dull and tired skin
- Fades sun spots and discoloration
- Boosts collagen and elasticity
- Protects from environmental damage

**Treatment Feel:** Cool and refreshing; gives an instant radiant finish

## 🌸 Treatment Frequency

**Superficial Peels:** Every 2–4 weeks (ideal for maintenance)

**Medium Peels:** Every 4–6 weeks (for pigmentation, texture, or scars)

**Deep Peels:** Once or twice a year under professional supervision

## 💧 Aftercare Guidelines

To maintain the best results after your peel:

- Avoid direct sunlight and heat for **48–72 hours**
- Apply a **broad-spectrum SPF 30+** daily
- Keep skin hydrated using a light, fragrance-free moisturizer
- Avoid exfoliants, retinol, or harsh cleansers for 3–5 days
- Do not peel or scratch shedding skin — let it exfoliate naturally

# LED Light Therapy

**Description:** Different wavelengths of LED light target specific skin concerns like acne, wrinkles, or pigmentation.

## Benefits:

- Boosts collagen

- Enhances skin radiance

- Calms and repairs the skin

- Reduces acne and redness

## Why Choose ORRO Skin Studio

- Experienced aestheticians and certified skin experts
- Premium-grade machines and products
- Personalized care and consultation
- Visible results from first session
- Relaxing, luxurious ambience

### Results You Can See and Feel

At Orro Skin Studio, results speak louder than words. Our treatments are clinically proven to enhance your skin health, restore balance, and bring back your natural glow — the Orro way.

## Employee Training & Safety

- Every Orro therapist undergoes rigorous training in skin physiology, machine operation, and hygiene standards. We prioritize client safety, machine calibration, and product quality to ensure a premium and safe experience every time.
